

## Fall Fundraising Opportunity for Forensics

An opportunity for fundraising has become available for our forensic team this fall. It is the Younker's Community Day event which is Saturday, November 14th. The fundraising for this event begins now and will run through the first week of November. Each team member may initially check out 15 Younker's Community Day booklets which sell for \$5 each. More booklets are available if you would like more.

The Lincoln East Forensics program does not require families to participate in fundraising activities, however, any participation you are willing to do is greatly appreciated. The funds raised will go to support travel to area tournaments and other tournament expenses.

You will need to let our Community Day coordinator – Penny Rotthaus -- know how many booklets you have sold on the following dates: September 25, October 9, October 23 and November 1. Younker's has additional sales incentives for those groups who follow their guidelines. All booklets and money needs to be returned no later than Monday, November 9. If you are done prior to November 9, please make arrangements to turn in any extra books and all money collected. Checks can be made out to Lincoln East Forensics.

In addition to individual sales, Younker's allows the team a time slots of two hours that they may sell at the entrance to the store after September 30th. If students are interested in staffing a booth in October, we can coordinate the date at one of your weekly Monday meetings. These sales will directly benefit the forensics team.

In addition to serving as a great fundraising opportunity, the booklets offer your family great discounts on tournament clothing. Need a new tie or pair of dress shoes? The booklet has a \$10 gift certificate in addition to "percentage off" coupons. Take advantage of this great benefit for your family!

Thanks you in advance for your support of the Lincoln East Forensics Program.
